WORLD'S BEST CUT FLOWER DAHLIAS

QUALITY SUPREME. The ideal of every florist. This is what we offer below. For forty years our cut Dahlia blooms in the wholesale market have been recognized as the quality supreme. Our trial grounds are recognized as the largest and most complete. We are the largest Dahlia growers in the world. We offer below world's best by test—the varieties that we grow ourselves.

These varieties are ideal in every way, clear, bright colors, strong, vigorous growers, free bloomers, flowers facing to upright on strong stems. Even the giant varieties are not coarse and heavy. Note the wonderfully graceful form of the Rodman Wanamaker and how it carries itself on its perfect stem. (See our descriptive catalogue, page 2, for photograph of plant in full bloom.)

AUDREY DAVENPORT. Decorative. A clear milk-white that will eventually find its way into every collection. The flowers are splendidly formed and held facing on stiff, slender, erect stems. Size 8 in. A strong, vigorous grower of branching habit, and an early and profuse bloomer. The flowers are very large, full at the center and held erect to facing on long, stiff stems. A splendid variety for cutting, garden and exhibition. Roots, 3 for \$2.50, doz. \$9.00, \$60.00 per 100.

DR. I. N. BEEGLE. Hybrid Cactus. Decidedly the best commercial white hybrid Cactus Dahlia. The color is glistening snow-white, large size and perfect form. Roots, 3 for \$6.00, doz. \$20.00, \$150.00 per 100.

GLADYS PEACOCK. Decorative. A massive flower, with long pointed buds and full high center. The flowers are very large and held facing on very long, cane stiff stems. The color is a bright, luminous carmine red, with a touch of lemon-yellow at base of the petals, which adds greatly to its color effect. The plant is a tall, vigorous grower and profuse bloomer for so gigantic a flower. A splendid commercial and exhibition flower. Roots, 3 for \$6.00, doz. \$20.00.

HELEN RANKIN. Decorative. A cross of Rosa Nell and one of our seedlings. The color is lighter and brighter than Rosa Nell, being a deep cerise. An early and profuse bloomer, on long, straight, stiff stems. The flowers are borne erect. A great acquisition for the garden and as a commercial cut flower. Roots, 3 for \$2.50, doz. \$9.00, \$60.00 per 100.

JANE HALL. Decorative. The best commercial yellow Decorative Dahlia in existence. A grand flower, of massive build, with long-pointed buds. The flowers develop with full high center, while the outer petals reflex to the stem. The plant is a strong, vigorous grower, and produces the flowers erect to facing on cane stiff stems. A very early and continuous bloomer. Ideal for cut flowers, exhibition and the garden. Roots, 3 for \$1.75, doz. \$6.50, \$45.00 per 100.

LAURA ENTRIEN. Hybrid Cactus. Deep rose-pink, reflex pure rose-pink. The form is perfect, with full high center, and borne facing on long, stiff stems. The flowers have great substance, lasting well on the plant and after cutting. It is the outstanding deep pink, and the best of its class as a cut flower. The plant is a strong, vigorous grower, with luxurious foliage. Roots, 3 for \$2.50, doz. \$9.00, \$60.00 per 100.

LEO NIESSEN. Decorative. This is the red Dahlia supreme. (See illustration, page 3 of catalogue.) The flowers are of large size, massive build and held erect on cane stiff stems. The color is a vivid cardinal red, with glistening sheen, in marked contrast with the dull or dark reds so common. The plant is a strong, vigorous, sturdy, upright grower, of branching habit; an early and continuous bloomer, producing the giant, perfectly full flowers until killed by frost. On our grounds it was unanimously pronounced the perfect red Dahlia. We unhesitatingly recommend Leo Niessen as the best red Decorative for exhibition, for the garden and for commercial cut flowers. It blooms under all conditions and is always perfect on long, stiff stems. Roots, 3 for \$10.00, doz. \$35.00, \$250.00 per 100.

LILY LAWRENCE. Hybrid Decorative. A splendid new variety that is not only an early and free bloomer, but continues until frost, and never shows an open center, even late in the Fall, when so many do. Hence it is a fine exhibition, garden, and cut flower Dahlia. The form is of the beautiful Bertha von Suttner type, with a full high center and the outer petals long irregular, twisted and whorled, turbine-like. The color is light yellow, the outer petals suffused and overlaid Jasper red. A pleasing blending of colors that is most effective. The plant is a sturdy grower, 4 ft. high, and the good-sized flowers are borne erect to facing on rigidly stiff stems. A great acquisition. Roots, 3 for \$2.50, doz. \$9.00, \$60.00 per 100.

MAE GREFE. Colossal Cactus. Pure pink, shading to rose-pink and tinting lighter at center and tips of petals. It could be best described as a giant stiff-stemmed Colossal Peace, of which it is a seedling. The giant flowers are produced facing, on very long, cane stiff stems. The ideal pink for cutting and exhibition. A very strong, vigorous grower. Can be planted early as it blooms even during the hot Summer weather. The best commercial pink, owing to its long stems, large size, beautiful clear pink color and long keeping qualities. Roots, 3 for \$3.75, doz. \$14.00, \$90.00 per 100.

MOTHER. Hybrid Cactus. (See illustration, catalogue, page 7.) Pure white with the slightest tint of lavender pink. It is most beautifully formed and carried most proudly on erect stems well supplied with foliage. It is an early and extremely profuse bloomer and must be disbudded. It is also a "crocheer" and should be handled like Break O'Day. For exhibition let plant grow naturally and disbud down five pairs of leaves, leaving the terminal, this gives you a splendid flower 7 to 8 in. across and deep. Then disbud the branches, allowing not more than four to grow. For commercial cut flowers, pinch out the center growth, when three pairs of leaves have formed;
